I am a Paris-based Software Engineer and Ph.D. candidate at Université Paris-Saclay. Before my graduate studies, I accumulated 5 years of experience as a full-stack software developer, leading Scrum teams through consultancy jobs in Ruby/JRuby, Ruby on Rails and NodeJS, and architecting the development of mobile applications and the maintenance of a high-throughput digital payload processing system. I speak English, Spanish and fairly good French. I am a native from Montevideo, Uruguay.

I have a "Titre de séjour" that authorizes me to live and work in France.
